

TO: Fire Department

FROM: Battalion Chief Tom Dunlap

THROUGH: Chief R. Dale Horne

DATE: February 9, 2011

RE: Smoke detectors

Purpose:

- a. To better protect the community with smoke detectors the Anderson city fire department will install smoke detectors in residential houses.

Procedure:

- a. The Anderson city fire department will install one smoke detector per house at the time of a structure fire.
- b. Members of the fire department will approach the two houses on both sides and the three houses across the street from any structure fire.
- c. If the structure fire is between the hours of 2200 and 0700 the next shift will be responsible for the installing of the smoke detectors.
- d. Smoke detectors should be placed not less than 4 inches and no more than 12 inches on a wall closest to the bed rooms.
