

ADOPT A STORM DRAIN IN YOUR NEIGHBORHOOD

You can help keep neighborhood storm drains free of leaves, grass clippings, soils, oils, paints and chemicals.

Storm drains are directly connected to the nearest body of water. Water running into storm drains can carry with it anything dumped nearby including leaves, grass clippings, soils, oils, paints and chemicals. Keeping storm drains clear will protect the water quality of nearby streams, rivers and lakes.

If you witness someone illegally dumping into the storm sewer system, please contact the Stormwater Hotline during normal business hours at 864-231-2246, or 864-260-4444 during evening/weekend hours, so that potential problems can be investigated.
